Kit Code: K55BK

Easyrefills kit

Kit Contents:

- 3 x 40mls ink bottles (black)
- 1 x plastic gloves
- 1 x absorbent pad

Preparation:

- Put on the gloves supplied
- Cover your work area in newspaper in case of accidental spillage.
- Read these instructions thoroughly
- Remove the cartridge from your printer (only do this when ready to refill.)

NB: Ink stains so we would recommend you wear old clothes or an apron when refilling.

Preparation

Remove cartridge, place tape over outlet port to prevent ink drips. Peel back the sticker

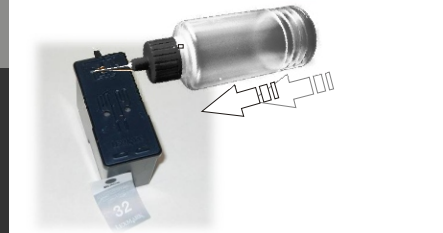

Peel Label off from top of the cartridge.

1 Step One

Insert the refilling needle through the hole closest to the copper strip .
It will not matter what hole you refill they all go into the same sponge , the first hole sits over the printhead,
Note: You will feel a slight pressure because the cartridge contains a sponge.

2 Step Two

- S-l-o-w-l-y and gently squeeze the ink refill bottle to force ink into the cartridge.
The reservoir will need to be filled a few times to make sure cartridge is completely filled.

3 Step Three

4 Step Four

Printer Compatibility:

Z818,X3330,X5250,X7150,X7350,X3350,
P915,P6250,Z800,X5200,X7170,X8350,
X5470

Cartridge Stats:

Colour: Black
Ink Capacity per chamber: 475 Pages

Number of refills per kit:

6 refills per kit

Easyrefills manufacturers all refill kits at it's Queensland headquarters. Importing the finest quality American made inks that are in most cases better than or equal to original manufacturers specifications. Each kit has a shelf life of two years and is covered by a 100% guarantee.

General Information

You have now refilled your cartridge.

5 Step Five

After refilling replace the top label or leave it off this will make no difference in printing. Replace cover by snapping back onto cartridge. Remove tape from bottom of outlet port to reuse the cartridge.

6 Step Six

Allow cartridge to sit on a flat surface on absorbent pad to check for leaks. if necessary leave cartridge in printer for up to 24 hours. Replace cartridge and run 1-3 print head cleans.

Congratulations, by refilling your inkjet cartridges not only are you saving money but you are also helping to save our planet by helping to reduce polluting waste.

7 Step Seven

Q: Cartridge will not print?

A: If the cartridge does not print after refilling, rest the print nozzles on a wet tissue. This will draw ink through the nozzles. Leave for 10 minutes and try printing again.

Q: Prints with streaks through text or image?

A: This could mean that the print nozzles are blocked, therefore preventing ink to flow freely. To correct this problem use the printers cleaning routine. If this does not work, rest the print nozzles on a wet tissue. This will draw ink through the nozzles. Leave for 10 minutes and try printing again.

Q: Ink stains on hands and clothes?

A: To clean your hands, first wash thoroughly in soap and warm water. If the stains persist, try using bathroom cleaner. It may take several washes to remove the ink. There is no real solution to ink stained clothes. However if you are using a dy cleaner, you can tell them the ink is based upon water soluble dye with ethylene glycol added.
