Epson T0492/93/94/95/96

Kit Code: K65CLR

AUSTRALIAN MADE
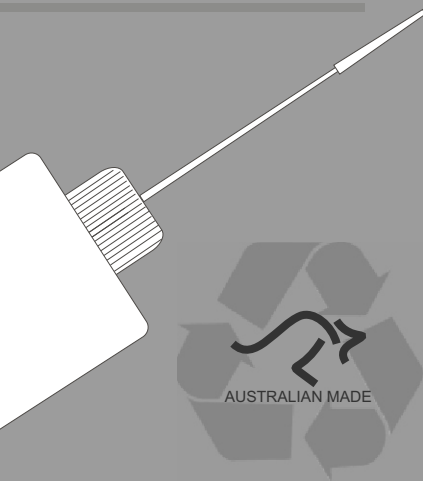

Easyrefills kit

Preparation

Kit Contents:

5 x ink bottles (cyan,magenta,yellow, light cyan, light magenta)
1 x plastic gloves
1 x hand drill
1 x absorbent pad
3 x plugs

Extra's Needed:

1 x Chip resetter (available from Easy refills)

Preparation:

- Put on the gloves supplied

- Cover your work area in newspaper in case of accidental spillage.

- Read these instructions thoroughly

- Remove the cartridge from your printer (only do this when ready to refill.)

NB: Ink stains so we would recommend you wear old clothes or an apron when refilling.

Step One 1

Top
Bottom
Point 'A'
Point 'B' Letter H
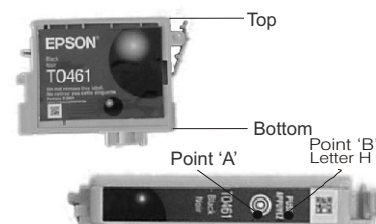

Locate point 'A'+'B' on the top of the cartridge. Note: Look for a round white dot on the original sticker just below the word 'push'. Point 'B' is located on H in push.

Step Two 2

Breather hole Point 'B'
Point 'A'
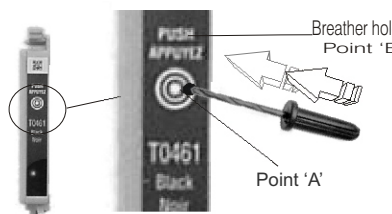

A refilling hole and breather hole must now be made at point'A'+'B'. Use the drill tool provided to make this hole. Point 'A' is located just to the left of centre of the white dot. Note: Do not drill in the centre of the white dot.

Step Three 3

Layer 1
Layer 2
View of inside the cartridge. Note: 2 layers of plastic to drill through
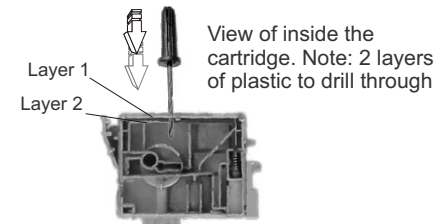

Once you have drilled through the first layer of plastic, you will meet another layer of resistence. This must also be drilled through until no resistance is felt.
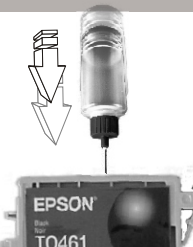

Step Four 4

Insert the refill needle into the hole you have just made. Push the needle as far down into the cartridge as possible. Note: Do not force the needle.

General Information

Printer Compatibility:

Epson Stylus Photo RX510, R210, R310

Cartridge Stats:

Chipped Cartridge: Yes
Colour Cyan,Magenta,Yellow, Light cyan, Light magenta
Ink Capacity: 15 ml

Step Five 5

S-l-o-w-l-y and gently squeeze the ink refill bottle to force ink into the cartridge. This must be done with very little pressure, pulling the needle upward as you go. **When ink is visible** at the top of the hole **stop** squeezing.

Step Six 6

Plug here

Insert the plug provided into the refilling hole and point 'B'. Gently squeeze the sides of the cartridge while resealing the hole. An a tight seal must be formed. Cover the hole and plug with the sticker provided.

Step Seven 7
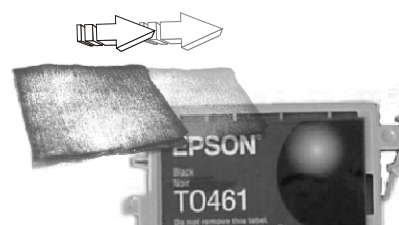

Using the pad provided, clean any foreign materials or excess ink from the cartridge. Due to the nature of this cartridge, some leaking may occur. If leaking occurs, simply blot with tissue until the leaking stops.

Step Eight 8

Chip re-setter

Before installing the cartridge into your printer, the chip must be reset using a chip re-setter. If you do not have a chip re-setter, one can be purchased from Easyrefills.

Trouble shooting ?

Q: Cartridge will not print?
A: If the cartridge does not print after refilling, rest the print nozzles on a wet tissue. This will draw ink through the nozzles. Leave for 10 minutes and try printing again.

Q: Prints with streaks through text or image?
A: This could mean that the print nozzles are blocked, therefore preventing ink to flow freely. To correct this problem use the printers cleaning routine. If this does not work, rest the print nozzles on a wet tissue. This will draw ink through the nozzles. Leave for 10 minutes and try printing again.

Q: Ink stains on hands and clothes?
A: To clean your hands, first wash thoroughly in soap and warm water. If the stains persist, try using bathroom cleaner. It may take several washes to remove the ink. There is no real solution to ink stained clothes. However if you are using a dy cleaner, you can tell them the ink is based upon water soluble dye with ethylene glycol added.
