#1/#15/#33/#35/#43

Kit Code: K76CLR

## Easyrefills kit

### Kit Contents:

- 3 x 40mls ink Colour ( C,M,Y )
- 1 x plastic gloves
- 1 x absorbent pad

### Preparation:

- Put on the gloves supplied
- Cover your work area in newspaper in case of accidental spillage.
- Read these instructions thoroughly
- Remove the cartridge from your printer (only do this when ready to refill.)

**NB:** Ink stains so we would recommend you wear old clothes or an apron when refilling.

## Preparation

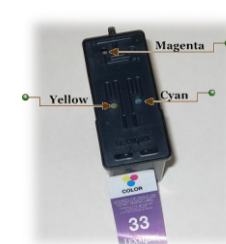

Remove cartridge, place tape over outlet port to prevent ink drips. Peel back the sticker.

Peel label off top of cartridge.

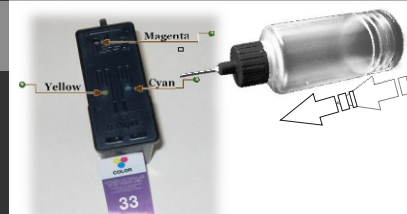

## 1 Step One

When refilling a colour, place a piece of tape over the other 2 holes so no ink will run into them.

Note: If the hole are not large enough for the needle, use the thumb drill provided.

## 2 Step Two

S-l-o-w-l-y and gently squeeze the ink refill bottle to force ink into the cartridge. The reservoir will need to be filled a few times to make sure cartridge is completely filled.

## 3 Step Three

## 4 Step Four

## 5 Step Five

## Trouble shooting

### Printer Compatibility:

Z818,X3330,X5250,X7150,X7350,  
X3350,X2330,X2350,X2450,X2470,  
X3450,X3470,Z735

### Cartridge Stats:

Colour: Colour  
Ink Capacity per chamber: 450 Pages

### Number of refills per kit:

6 refills per kit

Easyrefills manufactures all refill kits at it's Queensland headquarters. Importing the finest quality American made inks that are in most cases better than or equal to original manufacturers specifications. Each kit has a shelf life of two years and is covered by a 100% guarantee.

www.easyrefills.com.au

Repeat for each colour.  
You have now refilled your cartridge.

## 5 Step Five

After refilling, replace the top label or leave it off this will make no difference in printing. Remove any tape left from Step 3.

## 6 Step Six

Replace cartridge in printer and run 1-3 cleaning cycles as per instructions. Leave cartridge in printer for up to 8 hours after refilling so ink can entirely saturate the sponge.

Congratulations, by refilling your inkjet cartridges not only are you saving money but you are also helping to save our planet by helping to reduce polluting waste.

## 7 Step Seven

**Q: Cartridge will not print or prints with streaks through text or image?**

**A:** If the cartridge does not print after refilling, or there are streaks through your image or text, this could mean that the print nozzles are blocked, therefore preventing ink from flowing freely. If you have used the printers cleaning routine already, rest the print nozzles on a wet tissue. This will draw ink through the nozzles. Leave for 10 minutes and try printing again.

**Q: Ink level Gauge does not read full?**

**A:** While your cartridge will print just like a new one, the ink level gauge will not read full after a refill.

**Q: Ink stains on hands and clothes?**

**A:** To clean your hands, first wash thoroughly in soap and warm water. If the stains persist, try using bathroom cleaner. It may take several washes to remove the ink. There is no real solution to ink stained clothes. However if you are using a dry cleaner, you can tell them the ink is based upon water soluble dye with ethylene glycol added.
