

# Instructions

www.easyrefills.com.au

Canon PGI-35

Kit Code: K77BK

## Easyrefills kit

### Kit Contents:

- 3 x ink bottles (Black)
- 1 x plastic gloves
- 1 x absorbent pad

### Preparation:

- Put on the gloves supplied
- Cover your work area in newspaper in case of accidental spillage.
- Read these instructions thoroughly
- Remove the cartridge from your printer (only do this when ready to refill.)

**NB:** Ink stains so we would recommend you wear old clothes or an apron when refilling.

## Preparation

The ink in this cartridge is retained because it has an internal sponge.

Turn the cartridge over so the outlet port is facing up, as shown above.

## 1 Step One

**NOTE:** DO NOT PIERCE THE FELT PAD WITH THE NEEDLE.

## 2 Step Two

S-L-O-W-L-Y drip ink onto the felt pad showing in the outlet port. The ink will be absorbed quickly into the cartridge.

## 3 Step Three

## 4 Step Four

Replace the cartridge and run at least one cleaning cycle as per printer instructions. For best results leave the cartridge in the machine for up to 4 hours before printing to allow the ink to saturate the entire sponge.

## 7 Step Seven

## 8 Step Eight

**NOTE:** Empty cartridges should be refilled immediately to avoid the sponge drying out.

Congratulations! By refilling your inkjet tanks not only are you saving money but you are also helping to save our planet by reducing polluting waste. For best results refill and re-install one tank at a time.

## 9 Step Six

## Trouble shooting

When the ink is no longer being absorbed into the pad and just sits on top, then the chamber is full.

Gently dab the felt pad with a paper towel to soak up any ink that was not absorbed into the cartridge.

### Printer Compatibility:

CANON PIXMA iP100

### Tank Stats:

Colours: Black  
Ink Capacity: 5ml

### Number of refills per kit:

24 refills per kit

Easyrefills manufactures all refill kits at it's Queensland headquarters. Importing the finest quality American made inks that are in most cases better than or equal to original manufacturers specifications. Each kit has a shelf life of two years and is covered by a 100% guarantee.
